INVENT Kickstarter Awards

The network and its partners have established the INVENT Kickstarter Awards to provide funding to support international study expansion of INVENT-Endorsed Studies. These funds are intended to help Principal Investigators of academic studies endorsed by the network to initiate new international sites at INVENT-member countries.

The **goal** is to support international collaboration by providing funding to enable start-up activities that are not covered by the primary funding for the study.

Eligible expenses:

- Research Ethics Board / Institutional Review Board fees
- Study insurance
- Salary for personnel to prepare regulatory applications, introduce the study to local staff, liaise with local departments and prepare local study documents
- Central meeting costs

Ineligible expenses: Salary support for investigators and travel-related costs

Amount: Up to \$5,000 (CDN)

Eligibility: Principal investigators of INVENT-Endorsed Studies are eligible to apply. Both the principal investigator and a collaborating (lead) investigator in another INVENT-member country must be named on the application. During each award cycle, a principal investigator may only submit one application for a Kickstarter Award. Those who have submitted previous applications, both successful and unsuccessful, are eligible to apply to subsequent award calls.

Relevant dates: Applications are accepted and reviewed twice a year. This year's submission deadlines are **March 8th, 2019** and **September 6th, 2019**.

Application and award selection process: Please send a completed INVENT Kickstart Award Application Form by email: info@invent-vte.com. Applications will be reviewed by the INVENT Awards Committee.

Award administration: Kickstarter Awards will be sent directly to the collaborating (lead) investigator at the new participating site, to be applied towards their start-up costs.

More Information: If you have any questions or would like more information about the INVENT Kickstarter Awards, please contact us by email: info@invent-vte.com
